Terms of Service & Privacy Policy

Live For Ads — Ad-to-Earn Telegram Mini App

Version 1.0 • Effective as of publication date

LFA

BEFORE YOU BEGIN

About This Document

This document covers two things together: the **Terms of Service** that govern your use of the Live For Ads (“LFA”, “we”, “us”) Telegram Mini App, and the **Privacy Policy** explaining what data we collect and how it's used. By opening the app, checking in, watching ads, or using any other feature, you agree to the terms below.

Live For Ads is currently in active development. Some mechanics referenced here — point values, task lists, ad slots, and season dates — are configurable by the admin team and may change; the whitepaper reflects the current design at any given time.

TERMS OF SERVICE

Part One

ELIGIBILITY

1. Who Can Use LFA

- You must have a valid Telegram account to use the app; there is no separate registration.
- You are responsible for the security of your own Telegram account.
- One account per person. Creating multiple accounts to farm check-ins, ads, tasks, or referral bonuses is not allowed (see Section 4).
- If your local law restricts participation in ad-reward or crypto-adjacent apps, it's your responsibility to confirm you're eligible before using LFA.

THE SERVICE

2. What LFA Does

LFA lets you earn points through daily check-ins, watching sponsored ads, completing simple tasks, and referring other users. Points accumulate toward a season-end payout pool, funded by a share of actual advertising revenue and distributed based on each user's point share. Full mechanics are described in the Live For Ads whitepaper, which forms part of these terms by reference.

POINTS & PAYOUTS

3. No Guaranteed Value

- Points have no fixed monetary value and cannot be exchanged, sold, or transferred outside the app.
- Payout amounts depend entirely on actual advertising revenue generated that season and the total community point pool — there is no pre-set point-to-dollar rate.
- Withdrawals are only processed after a season closes, during that season's designated withdrawal window, and are manually reviewed before any payout is sent.
- We reserve the right to adjust point values, task lists, ad slot counts, referral thresholds, and season timing as the project develops.

Not a financial product

LFA points, in-app balances, and any future LFA token are not securities, investment contracts, or financial instruments. Nothing in this document or the whitepaper is financial or investment advice, and using the app is not a guarantee of any return.

FAIR USE

4. Prohibited Activity

The following will result in point forfeiture, referral invalidation, or account suspension, at our discretion:

- Using bots, scripts, emulators, or automation to watch ads, complete tasks, or check in.
- Creating multiple accounts, including to refer yourself or simulate other users.
- Exploiting bugs in the check-in streak, ad system, task system, or referral program instead of reporting them.
- Submitting a false or unverifiable wallet address, or attempting to withdraw before eligibility.
- Harassing other users or the admin team, or attempting to manipulate the leaderboard through fraud.

WITHDRAWALS

5. Payment Terms

- Payouts are sent in USDT via the BEP20 or Polygon network, to the wallet address you submit.
- You are solely responsible for providing a correct, compatible wallet address. Funds sent to an incorrect address you provided cannot be recovered by us.
- Network fees, exchange conversion, and any tax obligations arising from a payout are your responsibility.
- We may delay, reduce, or decline a withdrawal if we find evidence of fraudulent activity on the account.

THE LFA TOKEN

6. Future Token Disclaimer

Forward-looking, not a promise

Live For Ads may explore launching an on-chain token (LFA) in the future. As of this document, no token exists, no launch date is set, and nothing here or in any LFA communication should be read as a promise that a token will launch or hold any particular value. If a token launch becomes viable, separate terms specific to that token will be published.

CHANGES & TERMINATION

7. Updates to the Service

- We may update these Terms, the whitepaper mechanics, or the app itself at any time. Continued use after an update means you accept the revised terms.
- We may suspend or terminate an account that violates these terms, without prior notice, and withhold any pending payout tied to fraudulent activity.
- We may discontinue the app or any feature (including the season/payout system) at our discretion, though we'll aim to communicate major changes via the official Telegram channel.

LIABILITY

8. Disclaimer of Warranties

LFA is provided “as is,” without warranties of any kind. We do not guarantee uninterrupted access, error-free operation, or that any particular amount of ad revenue will be generated in a given season. To the maximum extent permitted by law, we are not liable for indirect, incidental, or consequential damages arising from your use of the app, including loss of points, delayed payouts, or wallet errors caused by information you provided.

PRIVACY POLICY

Part Two

DATA WE COLLECT

9. Information Collected

To operate the app and calculate points fairly, we collect:

- **Telegram identity:** your Telegram ID, username, display name, and profile photo (used as your default in-app avatar).
- **Activity data:** ads watched, tasks completed, check-in history and streak, and your points balance.
- **Referral data:** who referred you, who you've referred, and their ad-watching progress (needed to calculate eligibility and commission).
- **Withdrawal data:** the wallet address you submit when requesting a payout.
- **Custom profile edits:** if you choose to set a custom display name or picture instead of your Telegram defaults.

HOW WE USE IT

10. Purpose of Processing

- To operate core features: check-ins, the Ads tab, tasks, referrals, and the Leaderboard.
- To calculate each season's point allocation and process withdrawal requests.
- To detect and prevent fraud — multiple accounts, bot activity, and fake referrals.
- To communicate important updates (season changes, withdrawal windows) via the bot or official channel.

SHARING

11. Who Sees Your Data

- Ad network partners (serving the rewarded ads in the Ads tab) may receive data needed to serve and verify ad views, per their own privacy practices.
- The internal admin team can view user points, referral trees, and withdrawal requests to review and approve payouts.
- We do not sell your personal data to third parties.

RETENTION & SECURITY

12. How Long We Keep Data

Your points and activity history are tied permanently to your Telegram ID and retained for as long as your account is active, so your progress survives even if you leave and rejoin. We take reasonable steps to protect stored data, but no system is perfectly secure, and we can't guarantee absolute protection against unauthorized access.

YOUR CHOICES

13. Access & Deletion

- You can edit your display name and profile picture at any time from your Profile.

- You can request an export or deletion of your account data by contacting us (Section 14). Deleting your account will forfeit any unclaimed points or pending withdrawal tied to it.

This is a living document

Live For Ads is an early-stage, actively developed project. We'll update this document as features, the season system, and (eventually) the LFA token move from design to launch. The version number and effective date on the cover always reflect the latest revision.

Live For Ads — Built for and by its community.
